No. 300-1116 42" H x 18" W (1067mm x 457mm)

No. 300-1117 42" H x 24" W (1067mm x 610mm)

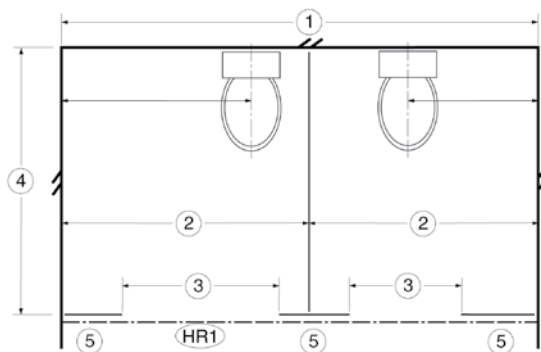

STANDARD CONCEALED HARDWARE

Contains 3 robust barrel hinges that adjust for partial opening or self-closing, a reinforced latch with a through-bolted keeper, a through-bolted clothing hook, and vandal resistant doorstops.

- Heavy gauge type 304 satin finish stainless steel
- For emergency access, door lifts from outside

HOW TO ORDER:

BEFORE YOU BEGIN:

- Sketch the building's wall locations. Note the building walls with double hash marks.
- Mark the approximate toilet locations in the stall. (Note: Toilets should be located 18" (457mm) from either side wall or side divider panel on barrier-free layouts).
- Sketch the existing components (stiles, panels, and doors). Remember to include door swings (left, right, in-swing, and out-swing).
- Select a color.

WHAT TO MEASURE:

- Total overall width of all stalls or the side wall to the end of the last panel.
- Side wall to the centerline of the divider panel (width of each stall).
- Door opening (stile edge to stile edge).
- Compartment depth (back wall to front/outside edge of stile).
- Existing stile width.

HR1—The headrail runs across the front width of the compartments from wall to wall.
